

## Removing and Installing Window Guides (Convertible D)

### Removal:

1. Remove door panel (10 BO).
2. Remove crank-operated window.
3. Undo two fastening nuts on lock side of door (see fig. 36).
4. Undo two fastening nuts on hinge side of door (see fig. 36).

### Installation:

Installation is done in reverse order. When doing this, check to see whether rubberized plush strip of window guides is still intact, if necessary replace by new one.

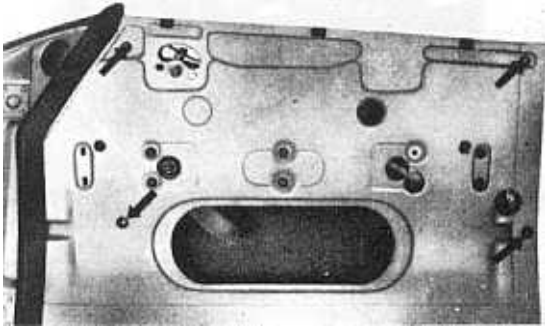

Fig. 36

5. Take out window guides.
